Independent Auditor's Report

To the Honorable Judges of the 25th District Court Lincoln Park, Michigan

We have audited the accompanying basic financial statements of the District Court Funds of District No. 25, a component unit of the City of Lincoln Park, Michigan (the "District Court") as of June 30, 2005 and for the year then ended, as listed in the table of contents. These financial statements are the responsibility of the District Court's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the basic financial statements referred to above present fairly, in all material respects, the financial position of the District Court Funds of District No. 25 of the City of Lincoln Park, Michigan as of June 30, 2005 and the changes in its financial position for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

The budgetary comparison schedule is not a required part of the basic financial statements but is supplemental information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted primarily of inquiries of management, regarding the methods of measurement and presentation of the required supplemental information. However, we did not audit the information and express no opinion on it.

The accompanying financial statements do not present a management's discussion and analysis, which would be an analysis of the financial performance for the year. The Governmental Accounting Standards Board has determined that this analysis is necessary to supplement, although not required to be part of, the basic financial statements.

Notes to Financial Statements June 30, 2005

Note I - Significant Accounting Policies

The accounting policies of the 25th District Court (the "District Court") conform to accounting principles generally accepted in the United States of America as applicable to governmental units. The following is a summary of significant accounting policies:

Reporting Entity

The District Court is governed by two elected judges. The District Court is responsible for traffic and moving violations, certain civil matters, and misdemeanors within the limits of the City of Lincoln Park, Michigan.

Fund Accounting

The accounts of the District Court are organized on the basis of funds, each of which is considered a separate accounting entity. The various funds are categorized as follows:

Governmental Fund

Operating Fund - The Operating Fund contains the records of the ordinary activities of the District Court that are not accounted for in another fund. The financial activities of the fund are limited to collection of subsidies from the City of Lincoln Park, Michigan (the "City") and payment of expenditures including payroll costs.

Fiduciary Fund

Agency Fund - The depository bond and trust accounts of the District Court are accounted for in an Agency Fund. The financial activities of the fund are limited to collection of amounts that are subsequently returned or paid to third parties. The fund is custodial in nature (assets equal liabilities) and does not involve the measurement of results of operations.

Notes to Financial Statements
June 30, 2005

Note I - Significant Accounting Policies (Continued)

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The District Court's Operating Fund is budgeted and accounted for using the current financial resources measurement focus and the modified accrual basis of accounting. Revenue is recognized as soon as it is both measurable and available. Revenue is considered to be available if it is collected within the current period or soon enough thereafter to pay liabilities in the current period. For this purpose, the District Court considers revenues to be available if they are collected within 60 days of the end of the current fiscal period.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, expenditures relating to compensated absences are recorded only when payment is due.

In addition to presenting information for the Operating Fund on the modified accrual basis (as budgeted), the financial statements present information for the District Court using the economic resources measurement focus and the accrual basis of accounting. This information is intended to demonstrate the degree to which taxpayers have funded the full cost of services received. Revenue is recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

Private sector standards of accounting issued prior to December 1, 1989 are generally followed in both modified accrual and full accrual columns, to the extent that those standards do not conflict with the standards of the Governmental Accounting Standards Board. The District Court has elected not to follow private sector standards issued after November 1, 1989 for its full accrual presentation.

Assets, Liabilities, and Net Assets or Equity

Bank Deposits and Investments - The District Court considers all highly liquid investments purchased with an original maturity of three months or less to be cash equivalents. Investments are recorded at fair value as of June 30, 2005, based on quoted market prices.

Notes to Financial Statements June 30, 2005

Note I - Significant Accounting Policies (Continued)

Capital Assets - Capital assets are defined by the District Court as assets with an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. The District Court building is owned by the City of Lincoln Park, Michigan and is not reported in these financial statements; the debt related to the building is also reported in the City's financial statements.

Capital assets are depreciated using the straight-line method over the following useful lives:

Furniture and fixtures 3-10 years
Law library 5 years

Compensated Absences (Vacation and Sick Leave) - It is the District Court's policy to permit employees to accumulate earned but unused sick and vacation pay benefits. All vacation and sick pay is accrued when incurred in the government-wide financial statements. A liability for these amounts is reported in governmental fund only for employee terminations as of year end.

Use of Estimates - The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expense during the period. Actual results could differ from those estimates.

Other accounting policies are disclosed in other notes to the financial statements.

Notes to Financial Statements June 30, 2005

Note 2 - Reconciliation of Government-wide and Fund Financial Statements

As discussed in Note I, the Operating Fund is presented on the modified accrual basis of accounting, and the District Court as a whole (which consists of just its Operating Fund) is also presented on the full accrual basis. The following is reconciliation of fund balance on the modified accrual basis of accounting to net assets presented on the full accrual basis:

Total Fund Balance - Modified Accrual Basis	\$	13,822
Amounts reported in the statement of net assets are different because	e:	
Capital assets are not financial resources and are not reported in the funds		40,000
Compensated absences are not recorded until due and are not reported in the funds		(153,911)
Total Net Assets (Deficit) - Full Accrual Basis	<u>\$</u>	(100,089)

The following is a reconciliation of the changes in fund balance on the modified accrual basis to the change in net assets on the full accrual basis:

Net Change in Fund Balance - Modified Accrual Basis	\$	(13,907)
Amounts reported in the statement of net assets are different because:		
Donated assets provided by the State of Michigan		29,400
Decrease in accumulated employee sick and vacation pay is recorded when earned in the statement of activities		62,617
Capital assets used in governmental activities are not considered financial resources; as such, depreciation recorded on those assets is not considered an activity of the funds		(16,400)
Governmental funds report capital outlays as expenditures in the statement of activities; these costs are allocated over their estimated useful lives as depreciation		3,000
·	_	64.710
Change in Net Assets of Governmental Activities	Þ	04,/10

Notes to Financial Statements June 30, 2005

Note 3 - Deposits and Investments

Michigan Compiled Laws Section 129.91 (Public Act 20 of 1943, as amended) authorizes local governmental units to make deposits and invest in the accounts of federally insured banks, credit unions, and savings and loan associations that have offices in Michigan. The local unit is allowed to invest in bonds, securities, and other direct obligations of the United States or any agency or instrumentality of the United States; repurchase agreements; bankers' acceptances of United States banks; commercial paper rated within the two highest classifications, which matures not more than 270 days after the date of purchase; obligations of the State of Michigan or its political subdivisions, which are rated as investment grade; and mutual funds composed of investment vehicles that are legal for direct investment by local units of government in Michigan.

The District Court has designated one bank for the deposit of its funds. The investment policy adopted by the District Court in accordance with Public Act 196 of 1997 has authorized investment in bonds and securities of the United States government and bank accounts and CDs, but not the remainder of State statutory authority as listed above. The District Court's deposits and investment policies are in accordance with statutory authority.

The District Court's cash and investments are subject to several types of risk, which are examined in more detail below:

Custodial Credit Risk of Bank Deposits - Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The District Court does not have a deposit policy for custodial credit risk. At year end, the District Court had \$275,205 of bank deposits (certificates of deposit, checking and savings accounts) that were covered by \$100,000 of federal depository insurance. The District Court believes that due to the dollar amounts of cash deposits and the limits of FDIC insurance, it is impractical to insure all deposits. As a result, the District Court evaluates each financial institution with which it deposits funds and assesses the level of risk of each institution; only those institutions with an acceptable estimated risk level are used as depositories.

Notes to Financial Statements June 30, 2005

Note 3 - Deposits and Investments (Continued)

Credit Risk - State law limits certain investments to the top two ratings issued by nationally recognized statistical rating organizations and the District Court has no investment policy that would further limit its investment choices. At June 30, 2005, the District Court holds \$285,000 of investments in bank investment pools, which are not rated.

Note 4 - Capital Assets

Capital asset activity of the District Court's governmental activities was as follows:

	Balance				Balance			Balance
	July 1, 2004		Additions		Disposals		June 30, 2005	
Depreciable capital assets:								
Furniture and equipment	\$	460,278	\$	29,400	\$	-	\$	489,678
Law library		90,000		3,000		7,000		86,000
Subtotal		550,278		32,400		7,000		575,678
Less accumulated depreciation		(526,278)		(16,400)		7,000		(535,678)
Net capital assets	\$	24,000	\$	16,000	\$		\$	40,000

Capital assets, including library books, are recorded at cost. Depreciation expense was \$16,400 for the year ended June 30, 2005.

Note 5 - Long-term Debt

Outstanding Debt

Debt outstanding of the District Court as of June 30, 2005 consisted of \$153,911 of accumulated employee benefits (compensated absences). The accumulated employee benefits represent the estimated liability to be paid governmental fund-type employees under the District Court's sick and vacation policy. The portion that is estimated will be paid currently, if any, and has been recorded as a liability in the Operating Fund. Under the District Court's policy, employees earn sick and vacation time based on time of service with the District Court.

Notes to Financial Statements June 30, 2005

Note 5 - Long-term Debt (Continued)

Changes in Long-term Debt

The following is a summary of long-term debt transactions of the District Court for the year ended June 30, 2005:

	Compensated Absences	
Balance - July 1, 2004	\$ 216,528	
Decrease in long-term portion of employee benefits	(62,617)	
Balance - June 30, 2005	\$ 153,911	

Note 6 - Budget Information

The budget of the Operating Fund is prepared by the District Court management and adopted by the City Council; subsequent amendments are approved by the City Council. Unexpended appropriations lapse at year end; encumbrances are not included as expenditures. The amount of encumbrances outstanding at June 30, 2005 has not been calculated. The budget was not amended during the current year.

The budget has been prepared in accordance with accounting principles generally accepted in the United States of America.

The budget has been adopted on a line-item basis; expenditures at this level in excess of amounts budgeted are a violation of Michigan law. A comparison to the budget as adopted by the City Council is shown in the required supplemental information. This comparison includes expenditure overruns. The significant budget overruns are as follows:

	Budget	Actual	Variance	
Salaries and wages Fringe benefits	\$ 717,885 570,167	\$ 736,723 601,752	\$ (18,838) (31,585)	
Total	\$ 1,288,052	\$ 1,338,475	\$ (50,423)	

Notes to Financial Statements June 30, 2005

Note 7 - Postemployment Benefits

The District Court provides health care benefits to all full-time employees upon retirement. Currently, five retirees are eligible. The District Court includes pre-Medicare retirees and their dependents in its insured health care plan, with no contribution required by the participant. The District Court purchases Medicare supplemental insurance for retirees eligible for Medicare. Expenditures for postemployment health care benefits are recognized as the insurance premiums become due. The City bills the District Court based on the District Court's total number of employees. During the year, this amounted to approximately \$137,000.

Note 8 - Defined Benefit Pension Plan

The District Court has no individual pension plan for its employees or judges. The District Court employees are participants in the City of Lincoln Park Municipal Employees' Pension Plan. The judges are covered under the State of Michigan Retirement Plan, a contributory defined benefit pension plan. Pension contributions to the Employees' Pension Plan, which were charged to the Operating Fund, were \$103,025 in 2005. Pension contributions for the District Court judges are collected as court costs and remitted to the State through the District Court's Agency Fund. Actuarial information on the two retirement plans is not available for the District Court employees or judges. Trend information is contained in the City of Lincoln Park and State of Michigan's audited financial statements.

Note 9 - Risk Management

The District Court is exposed to various risks of loss related to property loss, torts, errors and omissions, and employee injuries (workers' compensation), as well as medical benefits provided to employees. The District Court, through the City, has purchased commercial insurance for medical benefit claims and participates in the Michigan Municipal League risk pool for claims relating to property loss, torts, errors and omissions, and employee injuries. Settled claims related to the commercial insurance have not exceeded the amount of insurance coverage in any of the past three fiscal years.

The Michigan Municipal League risk pool program operates as a common risk-sharing management program for local units of government in Michigan; member premiums are used to purchase commercial excess insurance coverage and to pay member claims in excess of deductible amounts.

Notes to Financial Statements June 30, 2005

Note 10 - Upcoming Reporting Change

The Governmental Accounting Standards Board has recently released Statement Number 45, Accounting and Reporting by Employers for Postemployment Benefits Other Than Pensions. The new pronouncement provides guidance for local units of government in recognizing the cost of retiree health care, as well as any "other" postemployment benefits (other than pensions). The new rules will cause the government-wide financial statements to recognize the cost of providing retiree health care coverage over the working life of the employee, rather than at the time the health care premiums are paid. The new pronouncement is effective for the year beginning July 1, 2008.
